

Computer Recycling Drive

Mission Statement: As computers and related technology throughout the community, age and become obsolete, many potentially useful resources are improperly disposed of or are merely set aside wastefully. We wish to be the alternative. We will donate *operating* computers and related technology to needy organizations. If other technology is broken, we will *also* send it to a center in Seattle, where it will be properly recycled.

Collection dates: 06/11 and 06/14 – 06/17

Drop off location/time:

Bellevue High School – Keogh's Room 412 (Anytime during school hours)
Mr. Cox's room – Room 421 (Anytime during school hours)

This is the kickoff event for a continuous recycling effort. After school closes for the summer, recycling efforts will continue throughout the community. The drive will continue into and beyond next year.

Acceptable Equipment: Computer, computer screens, mice, power cords, keyboards, speakers, etc

Sponsor: Earthbound Club

Founders: John Ahrens and Peter Warendorf
