

The PTSA Grants Committee is pleased to announce the grants fully or partially funded for Fall 2009. We received a total of sixteen requests (totaling \$35,380) from throughout the school community. Grants subsidize Academics, Athletics, Activities and Administration requests.

Consideration was given to the number of students served by the grant, historical grants awarded and the nature of the request. We allocated nearly \$15,000 to fourteen separate grants.

The Grant Committee met in October with an advisory group, including teachers, students and the PTSA Board to collect input about the various requests we received. We then met as a smaller committee of parent volunteers to consider the information gathered and make the granting decisions.
